Alexis Ali A. Gutoc

Dr. Alexis Ali A. Gutoc (also referred to as Alexis A. Gutoc or Alexis Gutoc), **MD, FPOA, FPCS, FAPOA**, is a Muslim Filipino board-certified orthopedic and trauma surgeon based primarily in Marawi City (Lanao del Sur) and Iligan City (Lanao del Norte), with practice extending to Cagayan de Oro in Northern Mindanao. He specializes in orthopedic surgery and traumatology, arthroscopic surgery, reconstructive shoulder and elbow surgery, musculoskeletal diagnostic and interventional ultrasound, musculoskeletal regenerative medicine, and perineural injection therapy.

He serves as **Chairperson** (or Head) of the **Orthopedic Department at Amai Pakpak Medical Center** (APMC) in Marawi City, a Department of Health facility, and holds affiliations with several other hospitals in the region. He is a **Diplomate of the Philippine Board of Orthopaedics** and a **Fellow of the Philippine Orthopaedic Association**, Philippine College of Surgeons, Philippine Shoulder Society, and Philippine Orthopaedic Wound Care and Diabetic Limb Society.

Early Life and Family

Dr. Alexis Ali A. Gutoc is the son of **Atty. Candidato Baraocor Gutoc** (rahimahullah, November 1947 – November 2003) and **Bai Tomanina Ali Gutoc**, the first Directress of the **International Philippine School in Jeddah (IPSJ).**

His father was a **career diplomat and lawyer** from Marantao, Lanao del Sur. He rose through the Philippine Department of Foreign Affairs ranks, serving lengthy postings in Saudi Arabia (including as **Consul General in Jeddah, 1987–1994**, and earlier roles in Riyadh and Jeddah), later as **Ambassador to Bangladesh (1996–2002)** and **Ambassador to Bahrain**. He also headed the DFA's Middle East and African Affairs Division. Contemporary accounts credit him with significant work on behalf of overseas Filipino workers and with helping establish the Philippine School in Jeddah (later the International Philippine School in Jeddah). He died in Manila in November 2003 from liver cirrhosis.

His mother, **Bai Tomanina Ali Gutoc** (also referred to as Bae Tomanina Ali-Gutoc or Dr. Tomanina Ali Gutoc in some records), belonged to the pron[illegible]te. She is de[illegible]scribed in Maranao community sources as a noblewoma[illegible]r who playe[illegible]d a role in the early years of the International Philippine School [illegible]

A prominent sibling is **Ms. Samira Ali Gutoc** (born 19 December 1974 in Jeddah, Saudi Arabia), a civic leader, journalist, women's-rights advocate, **former member of the ARMM Regional Legislative Assembly and the Bangsamoro Transition Commission**, and two-time senatorial candidate (2019 and 2022). She is a **2019 TOWNS (The Outstanding Women in the Nation's Service) awardee for peace advocacy**. The family lived for extended periods in Saudi Arabia because of their father's diplomatic postings, which explains Alexis's primary and secondary education at the Philippine International School in Jeddah.

Family sources indicate the couple raised five children; Alexis and Samira are two of them. No further public details on the other siblings appear in the sources reviewed.

These family facts align cleanly with the earlier professional record: the Jeddah schooling, the Maranao cultural background, the long-standing presence in Marawi/Iligan, and the involvement in post-Marawi humanitarian work.

Education

Gutoc earned a **Bachelor of Science in Pre-Medicine** with a major in Chemistry from **De La Salle University in Manila** (June 1994–December 1998). He then completed his **Doctor of Medicine** degree at the **University of the East Ramon Magsaysay Memorial Medical Center** (June 1999–April 2003).

He undertook post-graduate internship at the Armed Forces of the Philippines Medical Center (April 2003–March 2005). Residency training in orthopedic surgery followed at the Philippine Orthopedic Center (July 2008–June 2012). He became a Diplomate of the Philippine Board of Orthopaedics in November 2013.

International fellowship training included clinical and research work in reconstructive shoulder and elbow surgery at Korea University Medical Center, Guro Hospital, Seoul, South Korea (July–November 2014), and clinical fellowship training in shoulder arthroscopy and advanced reconstructive surgery at Seoul National University Bundang Hospital, Seongnam, South Korea (September–November 2016). He is listed among alumni of the Korea University Guro Hospital international fellowship program.

Additional specialized training covered interventional and diagnostic neuromusculoskeletal ultrasound (workshops under various experts including Drs. Jonathan Finnoff, Jeffrey Strakowski, Jon Jacobson, and others between 2017 and 2019) and the Lyftogt Perineural Injection Treatment Master Class (July 2019, under Dr. John Lyftogt and Dr. Jeimylo de Castro).

Career and Public Service

Gutoc practices as a board-certified orthopedic and trauma surgeon with a focus on Marawi City and Iligan City, serving patients in both public and private settings. Hospital affiliations include **Amai Pakpak Medical Center** (where he is Medical Specialist IV in Orthopedic Surgery and Department Chairperson), **Adventist Medical Center-Iligan**, **Mercy Community Hospital**, **Iligan Medical Center Hospital**, **Polymedic Medical Plaza** (Cagayan de Oro), **Northern Mindanao Medical Center** (Cagayan de Oro), **Saint Francis Doctors' Hospital & Medical Center**, and others such as **Dr. Uy Hospital** and **Healthway Multi Specialty Center**.

He has contributed to emergency health response efforts. During the 2017 Marawi siege and its aftermath, he was identified in news reporting as an emergency health expert assisting displaced persons, noting the vulnerability of many child evacuees.

In recent years, as Chairperson of th as led efforts toward establishing an Orthopedic Residency Training Pro otabato Regional Medical Center signed a Memorandum of Agreement for a Consortium; Gutoc participated in the

signing and subsequent facility assessments in December 2025 aimed at Philippine Board of Orthopaedics accreditation. These initiatives address the shortage of orthopedic surgeons in Mindanao and support APMC's development as a specialty center.

He is listed as a Regional Board of Trustee of the Philippine Board of Orthopaedics in some professional profiles and appears in directories of the Philippine Orthopaedic Association (Region X – Northern Mindanao) with subspecialty interests in shoulder and wound care.

Leadership Roles

- Chairperson / Head, Orthopedic Department, Amai Pakpak Medical Center.
- Fellow and member of multiple professional societies, including Philippine Orthopaedic Association (Northern Mindanao Chapter), Philippine College of Surgeons (Northern Mindanao), Philippine Shoulder Society, and Philippine Orthopaedic Wound Care and Diabetic Limb Society.
- Regional involvement with the Philippine Board of Orthopaedics.

Contributions and Achievements

Gutoc has advanced specialized orthopedic care (particularly shoulder, arthroscopy, ultrasound-guided interventions, and regenerative approaches) in underserved areas of Northern Mindanao and the Bangsamoro Autonomous Region in Muslim Mindanao. His leadership at APMC supports the hospital's mandated specialty center development and residency training capacity-building, which aims to expand the local orthopedic workforce. International fellowship training has enabled him to bring advanced techniques to regional practice. His involvement in post-disaster health support during the Marawi crisis further highlights service-oriented contributions.

Awards and Recognition

No major national or international awards beyond professional fellowship and diplomate status were documented in primary sources. Professional recognition includes Fellow designations from the Philippine Orthopaedic Association (2014), Philippine College of Surgeons (2015), and related subspecialty societies, along with listings in Philippine Board of Orthopaedics and POA directories.

Personal Life

Details beyond professional associations remain limited in public records. Clinic contact information and schedules are publicly available through professional directories (e.g., SeriousMD and hospital sites). No verified information on hobbies, non-medical activities, or other personal aspects was found.

Legacy and Impact / Cultural or Historical Significance

As one of the orthopedic specialists practicing in Marawi and surrounding areas, Gutoc contributes to improving access to specialized musculoskelet[illegible] conflict a[illegible] limited specialist availability. His role in residency tra[illegible] ity buildin[illegible] for orthopedic services in BARMM and Northern Mindanao. [illegible] of Filipino physicians expanding advanced surgical and interventiona[illegible] centers. No broader cultural or historical significance beyond profe[illegible]

Research Assessment

Information was cross-checked primarily against Gutoc's own professional website/resume (Google Sites), physician directories (SeriousMD, Filipino Doctors, NowServing, POA Region X directory), official Amai Pakpak Medical Center publications (DOH-affiliated site), LinkedIn professional summary, news reporting (Inquirer), and institutional fellowship alumni listings. These form a consistent core narrative on education, training, affiliations, and recent leadership roles. Discrepancies in exact clinic schedules across sites are minor and reflect typical updates rather than factual conflict. Secondary or social media mentions align with the primary professional record. No contradictory accounts of key credentials or career milestones appeared.

Verified Facts

- Medical education: BS Pre-Medicine (Chemistry), De La Salle University; MD, University of the East Ramon Magsaysay Memorial Medical Center (2003).
- Residency: Philippine Orthopedic Center (completed 2012); Diplomate, Philippine Board of Orthopaedics (2013).
- Fellowships: Korea University Medical Center (2014); Seoul National University Bundang Hospital (2016); additional ultrasound and perineural injection training.
- Current leadership: Chairperson, Orthopedic Department, Amai Pakpak Medical Center.
- Professional fellowships: FPOA, FPCS, and related societies.
- Practice locations: Marawi City, Iligan City, Cagayan de Oro area.
- Involvement in 2025 APMC–CRMC Orthopedic Residency Training Consortium MOA and related activities.
- Participation in post-Marawi siege emergency health support (2017).
