Kizomama M. Karim

Engr. Kizomama M. Karim is a Maranao civil and sanitary engineer from Madamba, Lanao del Sur, whose four-decade career bridges the worlds of private construction and public service.

A double-degree holder from Mapua University, one of the country's top engineering schools, he built his reputation across civil, structural, plumbing, and sanitary engineering, spending equal stretches of his professional life in the private sector and in government.

He's a fellow of the Philippine Society of Master Plumbers and Plumbing Engineers (PSMPE) and holds the ASEAN Chartered Professional Engineer (ACPE) distinction in both Civil Engineering and Sanitary Engineering, placing him among a select group of Filipino engineers recognized at the regional level.

His career is a study in range: from designing infrastructure projects on the ground to auditing government work at the Commission on Audit (COA), Engr. Karim has contributed to the engineering profession across multiple fronts and institutions.

Background

Engr. Kizomama M. Karim hails from the Municipality of Madamba in Lanao del Sur, a province in the heart of the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM).

Like many professionals from the Maranao community who pursued careers in Manila and other major cities, his journey reflects both personal ambition and a broader story of Bangsamoro professionals making their mark in fields traditionally dominated by counterparts from Luzon and the Visayas.

He is married to Nena M. Karim, and they have three children together.

Education

Engr. Karim's academic path started at Mapua University in Manila, where he earned not one but two undergraduate engineering degrees.

He completed his **Bachelor of Science in Civil Engineering** in 1977, then followed it with a **Bachelor of Science in Environmental and Sanitary Engineering** in 1978, both from Mapua, which has long been recognized as one of the premier engineering institutions in the Philippines.

Not content to stop there, he went on to complete a **Master of Business Administration (MBA)** at the **University of Santo Tomas (UST)**, adding a layer of management and business acumen to his technical foundation.

He also undertook **graduate studies in Structural Engineering** at **Pamantasang Lungsod ng Maynila (PLM)**, deepening his expertise in one of the more specialized and technically demanding branches of civil engineering.

Career

Private Sector

Engr. Karim spent the first twenty years of his professional life in the private sector, where he worked in construction and project management and handled the design of various infrastructure projects.

This phase of his career gave him hands-on exposure to the full cycle of engineering work: from planning and design all the way through construction and delivery.

His background in both civil and sanitary engineering made him well-suited for infrastructure projects that required expertise across multiple disciplines, and his MBA training allowed him to operate effectively at the management level alongside purely technical roles.

Public Sector

The second half of his career shifted to government service, where he spent another twenty years contributing to key national agencies.

He served with the **National Housing Authority (NHA)**, bringing his engineering background to bear on one of the government's primary vehicles for housing development and shelter services.

He also worked with the **Metropolitan Waterworks and Sewerage System (MWSS)**, where his specialization in sanitary and environmental engineering was directly applicable to the

Profession	Civil Engineer, Sanitary Engineer, Plumbing Engineer
Education	Mapua University (BSCE 1977, BSESE 1978); University of Santo Tomas (MBA); Pamantasang Lungsod ng Maynila (Graduate Studies, Structural Engineering)
Affiliations	PICE, ASPE, PSMPE, PSSE (Life Member), PSPE, GEP, Association of Structural Engineers of the Philippines
Designation	ASEAN Chartered Professional Engineer (ACPE) in Civil Engineering and Sanitary Engineering
Hometown	Madamba, Lanao del Sur
Spouse	Nena M. Karim
Children	Three
Career	20 years, Private Sector; 20 years, Public Sector

agency's mandate of managing water supply and sewerage infrastructure.

He capped his government career with the **Commission on Audit (COA)**, the constitutional body responsible for auditing government accounts and programs. His technical background in engineering made him a valuable asset in an agency that regularly reviews infrastructure and public works expenditures.

He retired from government service after completing this chapter of his career.

Professional Affiliations and Institutional Contributions

Engr. Karim maintains active membership across a wide range of professional engineering organizations, reflecting the breadth of his technical expertise.

He is a member of the **American Society of Plumbing Engineers (ASPE)** and the **Philippine Society of Master Plumbers and Plumbing Engineers (PSMPE)**, organizations focused on plumbing engineering standards and practice.

He holds **Life Membership** in the **Philippine Society of Sanitary Engineers (PSSE)** and is designated as an **ASEAN Chartered Professional Engineer (ACPE) in Sanitary Engineering**, a regional accreditation that recognizes his standing in the field.

In civil engineering, he is a member of the **Philippine Institute of Civil Engineers Inc. (PICE)** and the **Association of Structural Engineers of the Philippines**, and likewise holds the **ASEAN Chartered Professional Engineer (ACPE) designation in Civil Engineering**.

He is also a member of the **Geodetic Engineers of the Philippines Inc. (GEP)**.

On the governance side of the profession, he has served on the **Board of Directors of the Philippine Society of Plumbing Engineers (PSPE)** since 2009, and previously served on the **Board of Directors of the Philippine Society of Sanitary Engineers (PSSE)** from 2009 to 2011.

Legacy

Engr. Kizomama M. Karim's legacy lies in the breadth of his contribution, not just the depth.

Across forty years of professional practice, he touched multiple engineering disciplines, worked in both the private and public sectors, and maintained active participation in professional organizations at the national and regional level.

For the Bangsamoro engineering community, his career stands as proof that professionals from Lanao del Sur and the broader Muslim Mindanao region can reach the highest levels of technical practice and institutional leadership in the Philippines.

His dual ACPE designations, in both Civil Engineering and Sanitary Engineering, are a mark of distinction that few engineers achieve. Combined with his decades of government service and his ongoing involvement in professional governance, they paint the picture of an engineer who gave generously to his profession, not just to his own career.

Recognition

Engr. Karim's recognitions are largely embedded in the professional distinctions and leadership roles he has accumulated over the course of his career.

His designation as a **Fellow of the Philippine Society of Master Plumbers and Plumbing Engineers (PSMPE)** is a peer-recognized honor within the plumbing engineering profession.

His **ASEAN Chartered Professional Engineer (ACPE)** status in both Civil Engineering and Sanitary Engineering represents recognition at the regional level, acknowledging his competence and standing as a professional engineer within the ASEAN community of engineers.

His continued service on the Board of Directors of the PSPE since 2009 reflects the sustained trust of his professional peers in his leadership and judgment.
