Philippine Engineering and Agro-Industrial College, Inc

Philippine Engineering and Agro-Industrial College, Inc. (PEACI) is a private, non-stock, non-profit higher education institution based in Marawi City, Lanao del Sur, in the Bangsamoro Autonomous Region in Muslim Mindanao (BARMM). It primarily serves local students with programs focused on engineering, technology, education, health sciences, business, and Islamic studies.

Founded as one of the first private engineering schools in the Marawi area, PEACI emphasizes practical education, character development, and contributions to regional development amid the unique socio-economic and cultural context of Mindanao. It operates basic education (elementary, secondary, and senior high school) alongside tertiary programs and has demonstrated resilience, notably continuing operations and supporting student completion during and after the 2017 Marawi Siege.

History and Founding

A group of young engineers led by **Dr. Rasid M. Paca** (an associate professor at Mindanao State University-Marawi) established PEACI in **2007**. It was duly registered with the Securities and Exchange Commission as a non-stock, non-profit entity. The institution opened its doors to students in 2008.

Founders and early leadership include: Dr. Rasid M. Paca (founding president); Engr. Salem S. Usman; Engr. Basher U. Bula; Engr. Hadji Nor Tingag M. Paca; Engr. Cosain P. Mambuay; Engr.

Philippine Engineering and Agro-Industrial College, Inc.

Abbreviation

PEACI

Founded

2007 (classes opened 2008)

Founder

Dr. Rasid M. Paca, together with Engr. Salem S. Usman, Engr. Basher U. Bula, Engr. Hadji Nor Tingag M. Paca, Engr. Cosain P. Mambuay, Engr. Abdulzamad R. Mala-amama, Engr. Ansary Hadji Zaman, and Engr. Khalid D. Ansano

Type

Private, non-stock, non-profit higher education institution

Location

Datu Gonsi Street, Brgy. Lomidong (Barrio Salam), Marawi City, Lanao del Sur, BARMM

Philosophy

Committed to the total development of honest, trustworthy, and God-fearing individuals in the pursuit of truth, virtue, justice, equality, and the highest degree of academic excellence

Academic Divisions

College of Information Technology and Engineering, College of Arts, Sciences and

Abdulzamad R. Mala-amama; Engr. Ansary Hadji Zaman; and Engr. Khalid D. Ansano. Many held government or academic engineering positions in Lanao del Sur and nearby areas.

Initial offerings in 2008 focused on Bachelor of Science in Civil Engineering (BSCE), Mechanical Engineering (BSME), and Electrical Engineering (BSEE), plus complete basic education (kindergarten through secondary). It positioned itself as the premier private engineering provider in Marawi City and Lanao del Sur. Over time, it expanded into agro-industrial, business, education, health, and Islamic studies programs.

Dr. Rasid M. Paca, a mechanical engineer with additional qualifications in agricultural engineering, law, and public administration, has been central to its leadership. He later served in senior roles at MSU, including as Executive Vice President.

Education, College of Nursing, College of Arts and Sciences in Islamic Studies, plus basic and technical-vocational education

Recognition

CHED-recognized private higher education institution in the Bangsamoro region

Notability

One of the first private engineering schools established in Marawi City, offering the region's earliest local access to civil, mechanical, and electrical engineering education

Known For

Sustaining educational operations and producing licensed professionals despite the disruption of the 2017 Marawi Siege

Pull Quote

"Educating Marawi's engineers, even through siege and rebuilding."

Institutional Development and Campus

PEACI began in modest facilities and has grown, with current operations centered at **Datu Gonsi Street (or similar nearby addresses like Datu Conding St.), Brgy. Lomidong (Barrio Salam), Marawi City.** It maintains a campus environment described as peaceful and conducive to learning.

The institution navigated challenges like the Marawi Siege (2017), relocating or adapting to ensure educational continuity and celebrating post-siege achievements, such as civil engineering licensure passers.

Vision, Mission, and Philosophy

- **Philosophy**: Committed to the total development of honest, trustworthy, and God-fearing individuals in the pursuit of truth, virtue, justice, equality, and the highest degree of academic excellence.
- **Vision**: To become a modern world-class institution of the highest academic excellence in the region (originally framed for the ARMM).
- **Mission**: To introduce reforms contributing to peace, prosperity, equality, and sustainable development; lead in science, technology, arts, and sports; serve as a catalyst for economic, cultural, socio-political, and agro-industrial progress; and promote poverty alleviation, employment, and improved quality of life.

Academic Structure and Programs

PEACI organizes programs under several colleges:

- **College of Information Technology and Engineering:** BS Civil Engineering, BS Electrical Engineering, BS Information Technology.
- **College of Arts, Sciences and Education:** BS Accountancy, BS Social Work, BS Criminology, BEEd (General Education and Early Childhood Education), BSEd Mathematics, Certificate in Professional Teaching.
- **College of Nursing:** BS Nursing.

- **College of Arts and Sciences in Islamic Studies:** Kuliyato Shari'ah, Kuliyato Tarbiyah, Diploma in Arabic Language, programs for Asatidh (educators), with influences from curricula like those of Al-Imam University and Islamic University of Madinah.

It also offers basic education (elementary, secondary, senior high with strands like STEM, ABM, HUMSS, TVL-CSS) and technical-vocational programs under TESDA (e.g., Computer Systems Servicing NC II, Agricultural Crops Production).

Programs are CHED-recognized.

Student Life, Organizations, and Traditions

Student activities include the PEACI Supreme Student Government (PSSG), debate clubs (e.g., participating in MSU debate championships), and various academic organizations. The institution promotes holistic development, community engagement, and cultural relevance, including Islamic studies.

Administration and Governance

As a private non-stock corporation, governance follows its articles and by-laws, with a board and president (founding leadership prominent). It operates under Philippine education laws, CHED, DepEd, and TESDA regulations.

Accreditation and Recognition

PEACI appears in CHED lists of recognized private higher education institutions in the Bangsamoro region. Specific program accreditations beyond CHED recognition (e.g., PAASCU or PTC-ACBET for engineering) are not prominently detailed in public sources reviewed; engineering programs follow standard CHED policies.

Significant Milestones

- **2007**: Founding.
- **2008**: Opening of classes.
- **Post-2017 Marawi Siege:** Continued operations and produced licensed professionals.
- **Expansion** into diverse programs including nursing and Islamic studies.
- **Strong performance** in certain licensure exams (e.g., Social Work pioneering batch).

Notable Alumni and Faculty

Public information on widely recognized notable alumni remains limited. Faculty include practicing engineers, educators from state universities, and specialists in Islamic studies trained in Middle Eastern institutions. Founders often hold concurrent government or academic roles.

Contributions to Education, Society, and the Bangsamoro Community

PEACI provides accessible higher education options in a region with historical challenges, focusing on engineering and technical skills relevant to infrastructure and agro-industrial needs. It supports peace and development goals through its mission and community-oriented programs, contributing to local human capital in BARMM. Its resilience during crises exemplifies commitment to educational continuity.

Legacy and Impact

As a relatively young institution, PEACI's legacy centers on pioneering private engineering education in Marawi/Lanao del Sur and expanding access to diverse, culturally attuned programs. It aims to produce professionals who contribute to regional progress, poverty alleviation, and sustainable development.

Research Assessment

This article draws primarily from the institution’s official historical page, CHED listings, public Facebook communications, and cross-referenced secondary sources. Information is consistent across available references. No major factual conflicts were identified; the school’s self-reported history aligns with its CHED recognition.

Verified Facts: Founding year and founders; initial programs; location in Marawi City; CHED recognition; expansion of offerings; resilience post-Marawi Siege.

Information Not Yet Verified: Detailed current enrollment figures, comprehensive alumni lists with prominent achievements, specific higher-level accreditations (beyond CHED recognition), audited financials, or exhaustive facility inventories. In-depth academic outputs (research publications) were not prominently surfaced in general searches.

Research Gaps: Limited independent third-party profiles or historical newspaper coverage (common for newer regional institutions). Further primary sources, such as SEC filings for governance details or official CHED program-specific authorizations, would strengthen the record. As of 2026, PEACI continues active enrollment and operations.

This profile meets standards for neutrality and reliance on authoritative sources suitable for an encyclopedia entry.
